# WHAT IS CRYPTO CURRENCY?

*Cryptocurrency is a digital or virtual currency that uses cryptography for security and operates independently of a central bank. Cryptocurrencies use decentralized technology, such as blockchain, to ensure the security of transactions and to control the creation of new units. Unlike traditional currencies, cryptocurrencies are not controlled by any government or financial institution and can be transferred directly between individuals without the need for intermediaries. Some of the most well-known cryptocurrencies include Bitcoin, Ethereum, and Litecoin.*

# CRYPTO CURRENCY IS THE FUTURE OF FINANCE

*Cryptocurrency is a digital payment system that doesn't rely on banks to verify transactions. It's a peer-to-peer system that can enable anyone anywhere to send and receive payments. Instead of being physical money carried around and exchanged in the real world, cryptocurrency payments exist purely as digital entries to an online database describing specific transactions. When you transfer cryptocurrency funds, the transactions are recorded in a public ledger. Cryptocurrency is stored in digital wallets*
